Open Source

Weather App

<https://reymonweather.herokuapp.com/>

Check the weather in any city in the world with the help of openweathermap API, using only JavaScript and React

Custom Trello

<https://reymontrello.herokuapp.com/>

Its like Trello... but made by Reymon, so Rello! Using React and Redux for very smooth transitions, I keep updating it regularly with more features.

My movie DB

<https://reymonmovies.herokuapp.com/>

Using TMDB API, lets you check several categories for movies and see indormation about it! Smooth design that uses JS, React, Redux and React-bootstrap. Now you can also search for any movie in the search bar!

Education
